## Experience

- Jan 2023 – **Senior Developer**, *thoughtbot*, Remote, Paris  
Mar 2024 I did stacked orders for a fast-food chain in Saudi Arabia.
- May 2022 – **Developer**, *thoughtbot*, Remote, Paris  
Dec 2022 *thoughtbot* is an agency that helps with design and development of applications.  
I did a transition to a new payment provider, order counters, bugs, performance, chores for a fast-food chain in Saudi Arabia.  
Built with **Ruby on Rails** and **Hotwire (Stimulus and Turbo)**.
- Sep 2020 – **Full-Stack Developer**, *Doctolib*, Paris  
Jan 2022 Doctolib is the most popular way for people in France to book appointments with doctors and for doctors to manage their appointments.  
I was part of the video-consultation team, led the place of birth project, was the ritual owner, improved the desktop client for document uploads by practitioners, refactored the availability search.  
Built with **Ruby on Rails**, **React**, TypeScript, and Electron.
- Nov 2016 – **Backend Engineer**, *Trusted*, San Francisco  
May 2017 Trusted was a baby-sitting on demand service in the Bay Area then we expanded to New York and got acquired by Care.com.  
Made a API for the Web app, made the landing page, made the sitters searches.  
Built with **Ruby on Rails**.
- Sep 2013 – **Software Engineer**, *Bespoke Post*, Remote & New York  
Aug 2015 Bespoke Post is a subscription service that sends quality products every month.  
Made the website responsive, made the individual products store, made products pages, made the gift card flow, made the checkout flow.  
Built with **Ruby on Rails**, jQuery and Angular.
